

Nu Html Checker

This tool is an ongoing experiment in better HTML checking, and its behavior remains subject to change

Showing results for index.html

Checker Input

Show ☒ source ☒ outline ☒ image report

Check by no file selected

Uploaded files with .xhtml or .xht extensions are parsed using the XML parser.

Use the Message Filtering button below to hide/show particular messages, and to see total counts of errors and warnings.

1. **Warning** Section lacks heading. Consider using `h2 - h6` elements to [add identifying headings to all sections](#), or else use a `div` element instead for any cases where no heading is needed.

[From line 93, column 5; to line 93, column 13](#)

```

Document checking completed.

Image report

The `img` elements of the page are shown below categorized by their type of textual alternative. Please review that the images in each group match that group's definition.

Images with textual alternative

The following images have textual alternatives. Please review that the textual alternatives make sense considering the purpose of the image in the context of the page and that phrases like "Image of ..." are avoided.

Note that iconic images that are redundant with text next to them or purely decorative should have `alt=""`

instead.

Image	Textual alternative	Location
<i>Not resolvable</i>	Shihe Wang at the belay station of a multipitch climb.	From line 43, column 13; to line 43, column 115
<i>Not resolvable</i>	A gold rubber duck trophy on a desk	From line 51, column 17; to line 51, column 92
<i>Not resolvable</i>	Shihe Wang on the top of a route	From line 71, column 17; to line 71, column 89
<i>Not resolvable</i>	A bird on the top of a mountain	From line 82, column 17; to line 82, column 91
